Instructions for Applicable Requirements Form AP-100H

All pollutants emitted by each emission unit must be accounted for. Use multiple copies of this form as necessary.

Plant Name Enter the plant name as it appears in Form AP-100A.

Plant ID This is the identification number assigned to the source by the District. If this application is for a new source for which an ID has not been assigned, this space may be left blank.

Applicable Regulations

Emission Point Name Enter the emission unit name as it was listed on Form AP-100B. If this is the same as in the immediately preceding block, you may enter "SAME."

Emission Point ID Enter the emission unit ID number as it was listed on Form AP-100B.

Pollutant Enter the pollutant whose applicable requirements are to be described.

Special Conditions Provide a description of any conditions or restrictions on operation that affect emissions or operations. (For example, only one unit may be operated at a time.)

Emission Regulations List specific emission regulations affecting this emission unit and pollutant.

Emission Standard List any standards or limitations set forth by the cited regulations.

Recordkeeping Regulations List specific recordkeeping regulations affecting this emission unit and pollutant.

Recordkeeping Requirement Describe any specific recordkeeping required by the cited regulations.

Reporting Regulations List specific reporting regulations affecting this emission unit and pollutant.

Reporting Requirements Describe any reporting required by the cited regulations.

Monitoring Regulations List specific monitoring regulations affecting this emission unit and pollutant.

Monitoring Requirements Describe monitoring required by the cited regulations.

Testing Regulations List specific testing regulations affecting this emission unit and pollutant.

Testing Requirements Describe testing that is required by the cited regulations.
